

PEOPLESFIRST

FINAL WEBSITE QUALITY ASSURANCE REPORT

Design Fidelity • Responsive QA • Usability

REVIEW TYPE	Final QA / Design Review
QA COVERAGE	Grow With Us • Ideas Lab • Studio / Insights • What We Do • Podcasts

21 TRACKED FINDINGS

Prepared for final review

1. Executive Summary

The final QA review covered the remaining reviewed sections of the PeopleFirst website. The findings are primarily related to visual fidelity against the approved design, typography, image/asset matching, spacing and positioning, and responsive behavior. The annotated screenshots from the original final QA document are retained as evidence.

The final review identified 21 findings across 5 areas:

- Grow With Us: 4 finding(s)
- Ideas Lab: 5 finding(s)
- Studio / Insights: 1 finding(s)
- What We Do: 8 finding(s)
- Podcasts: 3 finding(s)

2. QA Priorities

- Match typography, font family, font weight and text colors with the approved design.
- Use the correct images and decorative assets and preserve the intended image orientation.
- Correct spacing, positioning, alignment, border-radius and shadow differences.
- Resolve mobile clipping/overlap issues and keep controls usable at small widths.

3. Findings Overview

ID	Page / Area	Category	Finding
GRW-01	Grow With Us	Visual styling	The “Partner with Us” button color does not match the design.
GRW-02	Grow With Us	Typography	The selected heading text is not bold in the same way as the design.
GRW-03	Grow With Us	Typography	The heading font family does not match the design.
GRW-04	Grow With Us	Responsive	At mobile width, the hero text is hidden/cut off until approximately 568px.
IDL-01	Ideas Lab	Imagery	The image in the Recommended Article section does not match the design.
IDL-02	Ideas Lab	Visual styling	The green statistic box background color does not match the design; border radius also needs to be applied.
IDL-03	Ideas Lab	Imagery	The decorative image/graphic does not match the design.
IDL-04	Ideas Lab	Layout	The statistic box is positioned differently from the design; it should be on the right side.
IDL-05	Ideas Lab	Imagery	The image in the article card does not match the design.
STD-01	Studio / Insights	Responsive / UX	In mobile view, the “All Category” dropdown

			overlaps the screen up to approximately 586px width.
WWD-01	What We Do	Typography	The highlighted text uses a font family that does not match the design.
WWD-02	What We Do	Visual styling	The highlighted text color does not match the design.
WWD-03	What We Do	Layout	The title with its number should be centered consistently across the cards.
WWD-04	What We Do	Layout / Imagery	In the “Results Clients Can Expect” section, the image and text position do not match the design.
WWD-05	What We Do	Imagery	The image direction/orientation in the “Digital Inclusion” card is opposite to the design.
WWD-06	What We Do	Typography	The “Digital Inclusion” card text color does not match the design.
WWD-07	What We Do	Visual styling	The edges of the green decorative shape in the “Joint Ventures” card are sharp.
WWD-08	What We Do	Responsive	In mobile view, the items in “Results Clients Can Expect” should align consistently on the same line/treatment.
POD-01	Podcasts	Typography	The selected words in the podcast heading do not use the same font weight as the design.
POD-02	Podcasts	Visual styling	A white border is visible around the podcast image, but it is not present in the design.
POD-03	Podcasts	Visual styling	The image shadow is missing.

4. Grow With Us – Detailed Findings

GRW-01 | Visual styling

The “Partner with Us” button color does not match the design.

Required correction: Match the button color to the approved design.

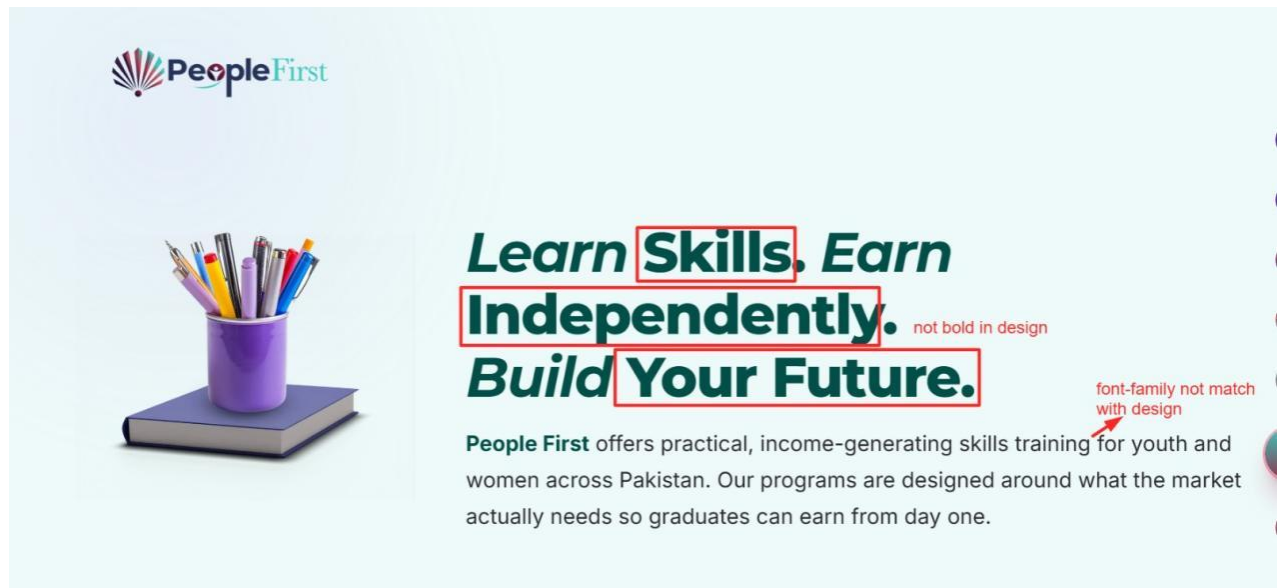

Evidence: image1.png

GRW-02 | Typography

The selected heading text is not bold in the same way as the design.

Required correction: Match the heading weight to the design.

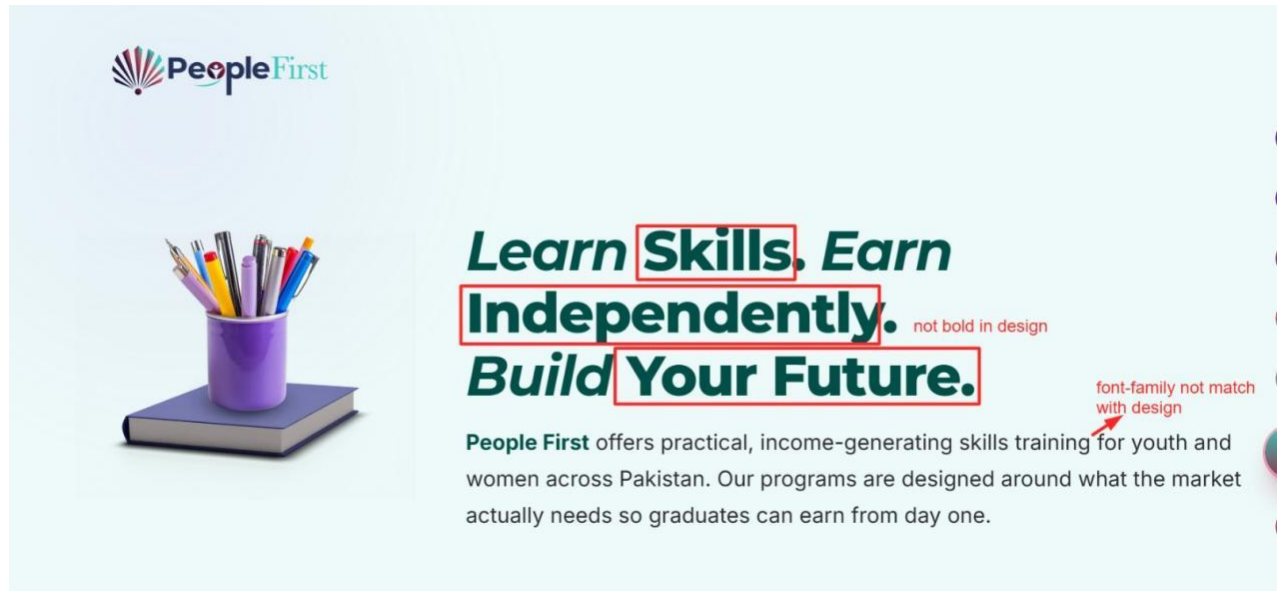

Evidence: image2.jpeg

GRW-03 | Typography

The heading font family does not match the design.

Required correction: Use the font family shown in the approved design.

Evidence: image2.jpeg

GRW-04 | Responsive

At mobile width, the hero text is hidden/cut off until approximately 568px.

Required correction: Ensure the hero content remains visible and correctly positioned at mobile widths.

text hide till screen width
of 568px

Learn Skills. Earn Independently. Build Your Future.

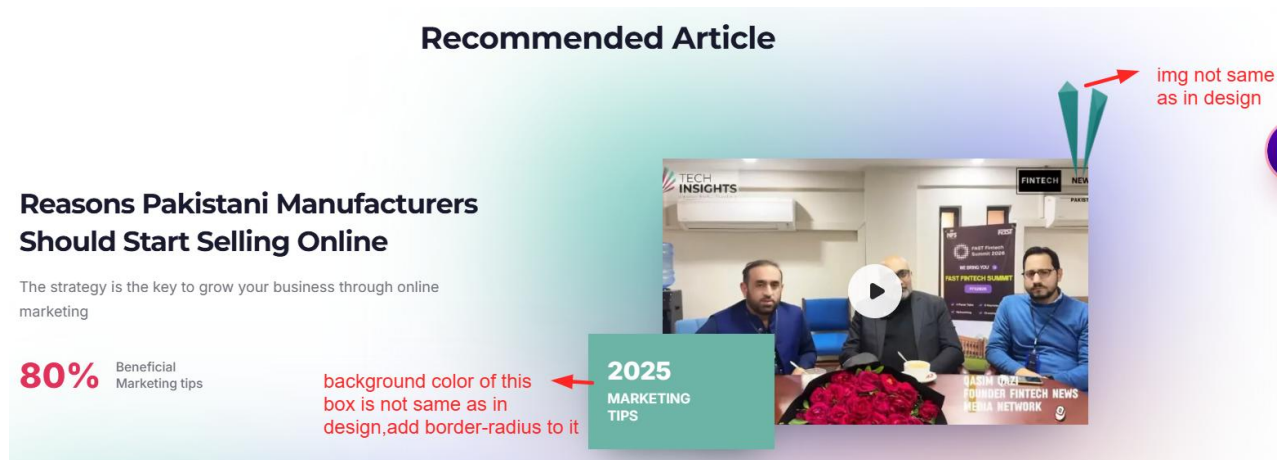

People First offers practical, income-generating skills training for youth and women across Pakistan. Our programs are designed around what the market actually needs so graduates can earn from day one.

5. Ideas Lab – Detailed Findings

IDL-01 | Imagery

The image in the Recommended Article section does not match the design.

Required correction: Use the correct image asset from the design.

Evidence: image4.png

IDL-02 | Visual styling

The green statistic box background color does not match the design; border radius also needs to be applied.

Required correction: Match the box color and border-radius to the design.

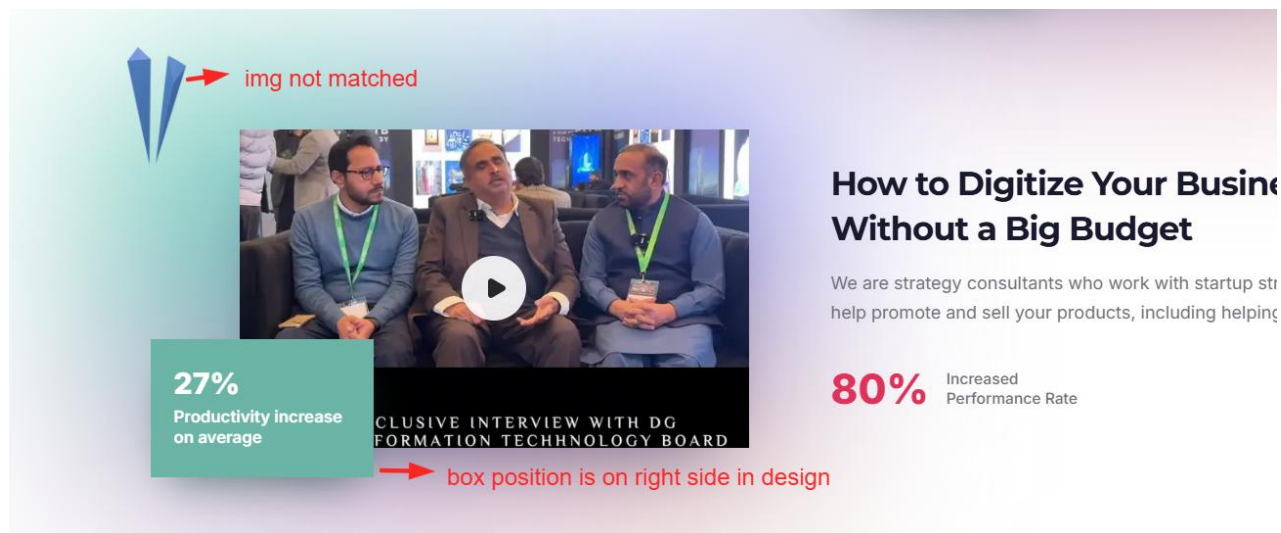

Evidence: image4.png

IDL-03 | Imagery

The decorative image/graphic does not match the design.

Required correction: Use the correct decorative asset.

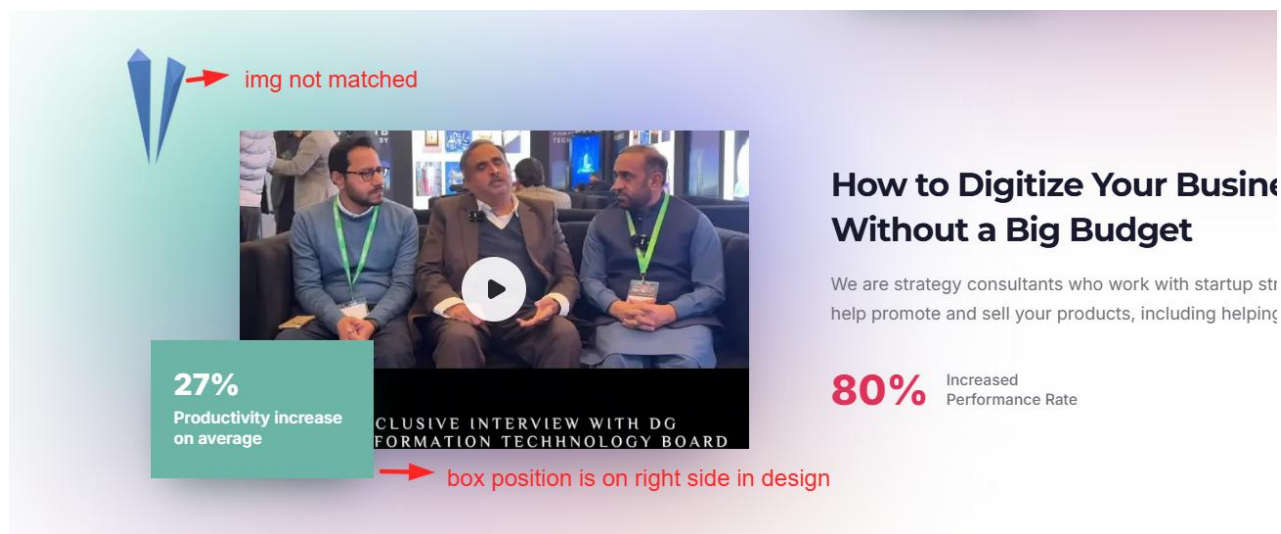

Evidence: image5.png

IDL-04 | Layout

The statistic box is positioned differently from the design; it should be on the right side.

Required correction: Match the statistic box position to the design.

Evidence: image5.png

IDL-05 | Imagery

The image in the article card does not match the design.

Required correction: Use the correct image asset.

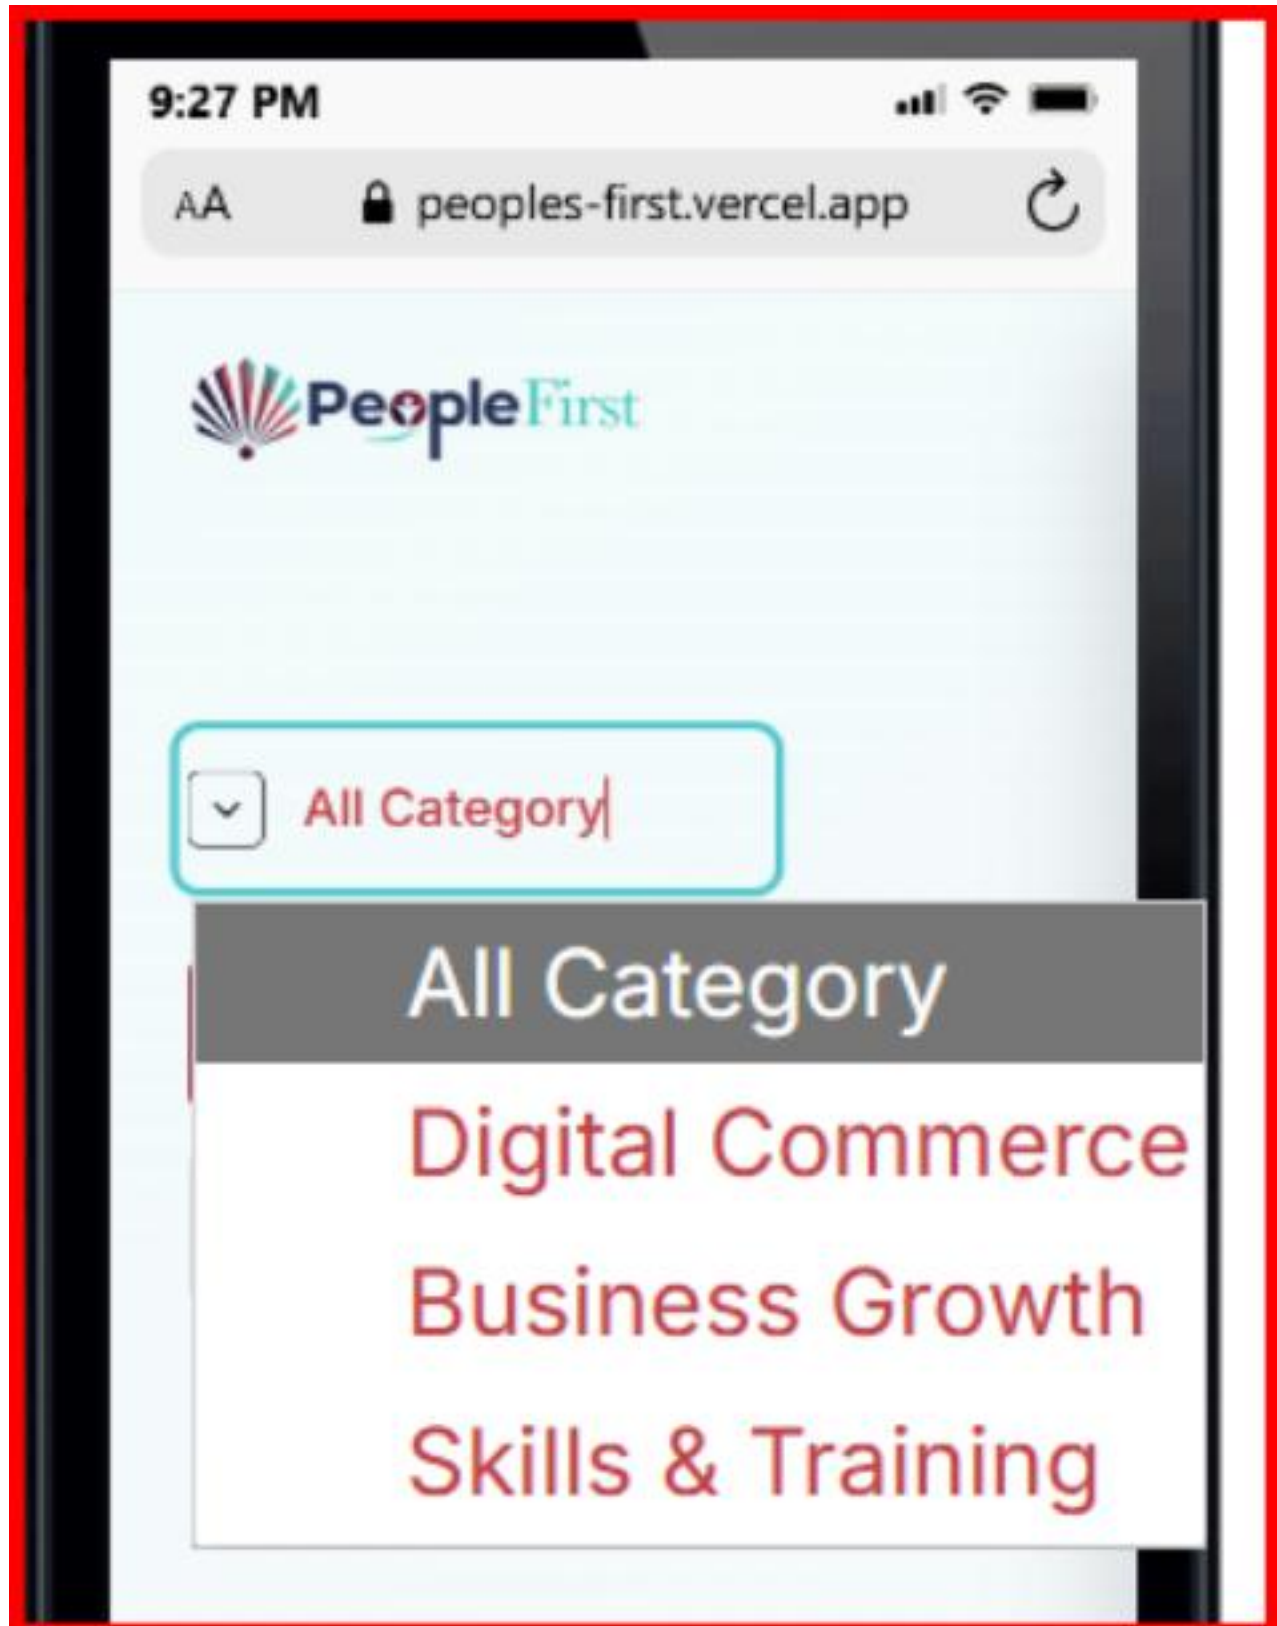

Evidence: image6.png

6. Studio / Insights – Detailed Findings

STD-01 | Responsive / UX

In mobile view, the “All Category” dropdown overlaps the screen up to approximately 586px width.

Required correction: Adjust the dropdown positioning/size so it remains fully usable at mobile widths.

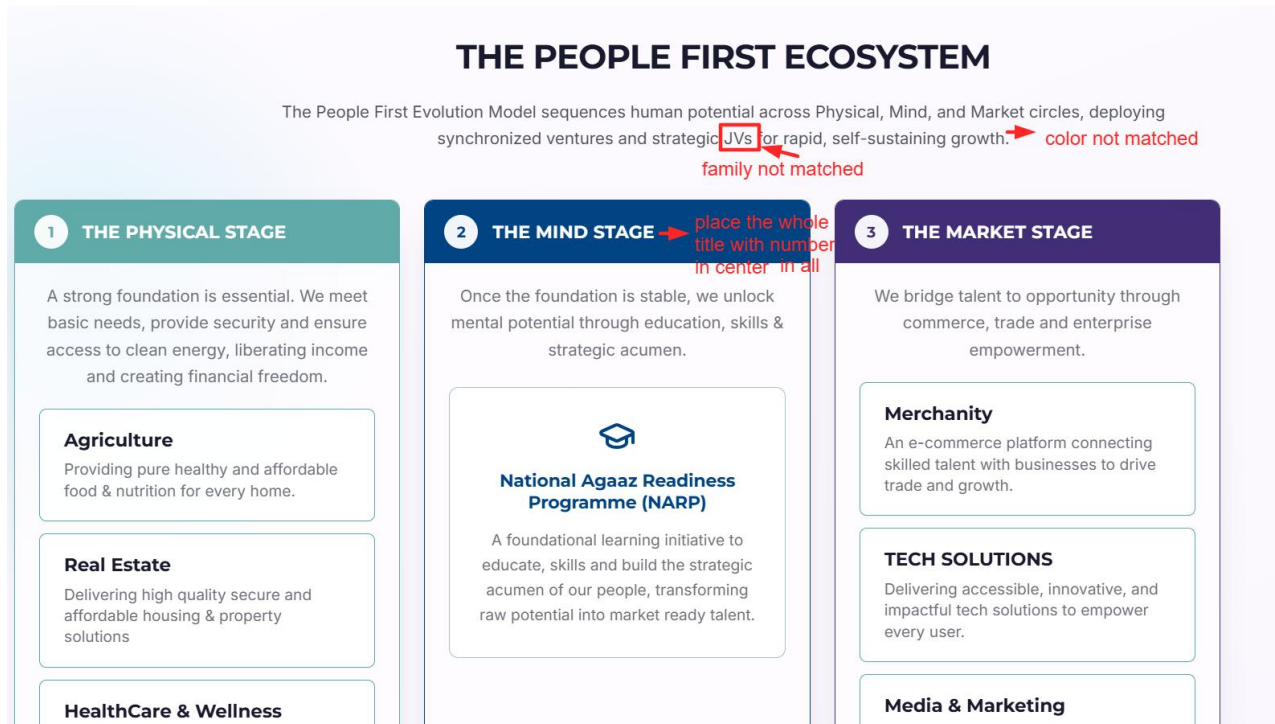

Evidence: image7.png

7. What We Do – Detailed Findings

WWD-01 | Typography

The highlighted text uses a font family that does not match the design.

Required correction: Use the approved font family.

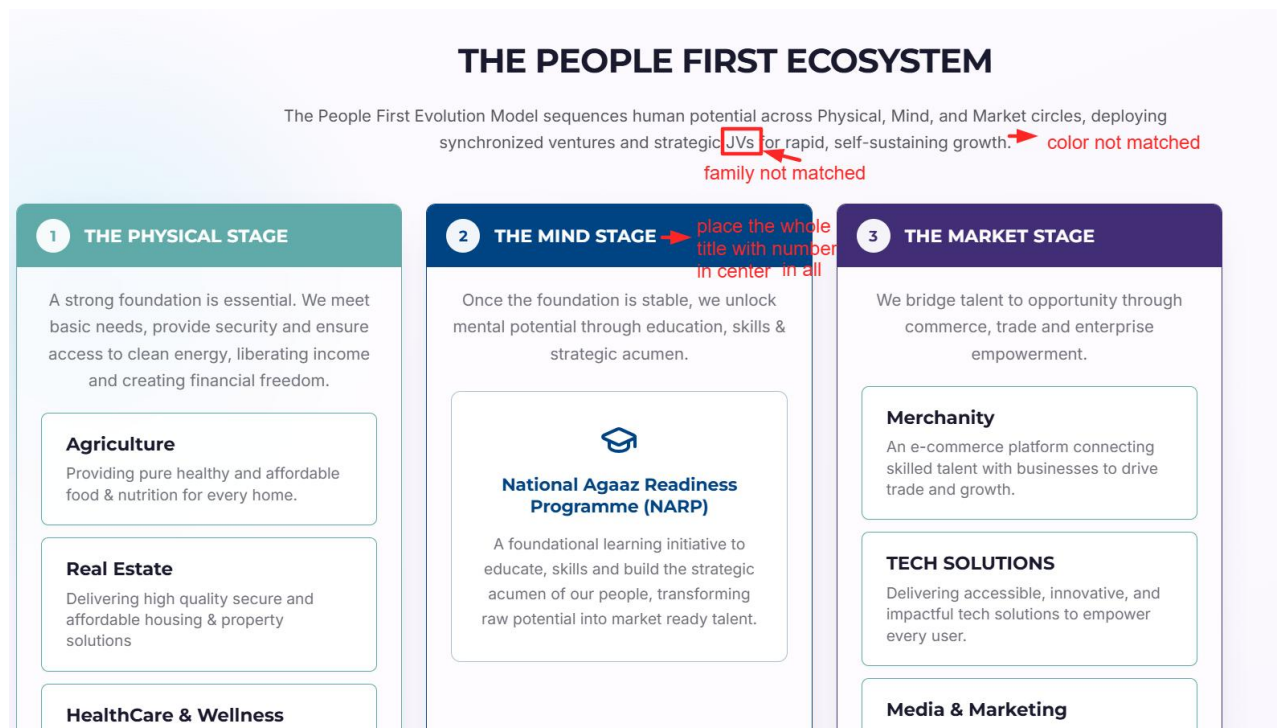

Evidence: image8.png

WWD-02 | Visual styling

The highlighted text color does not match the design.

Required correction: Match the text color to the design.

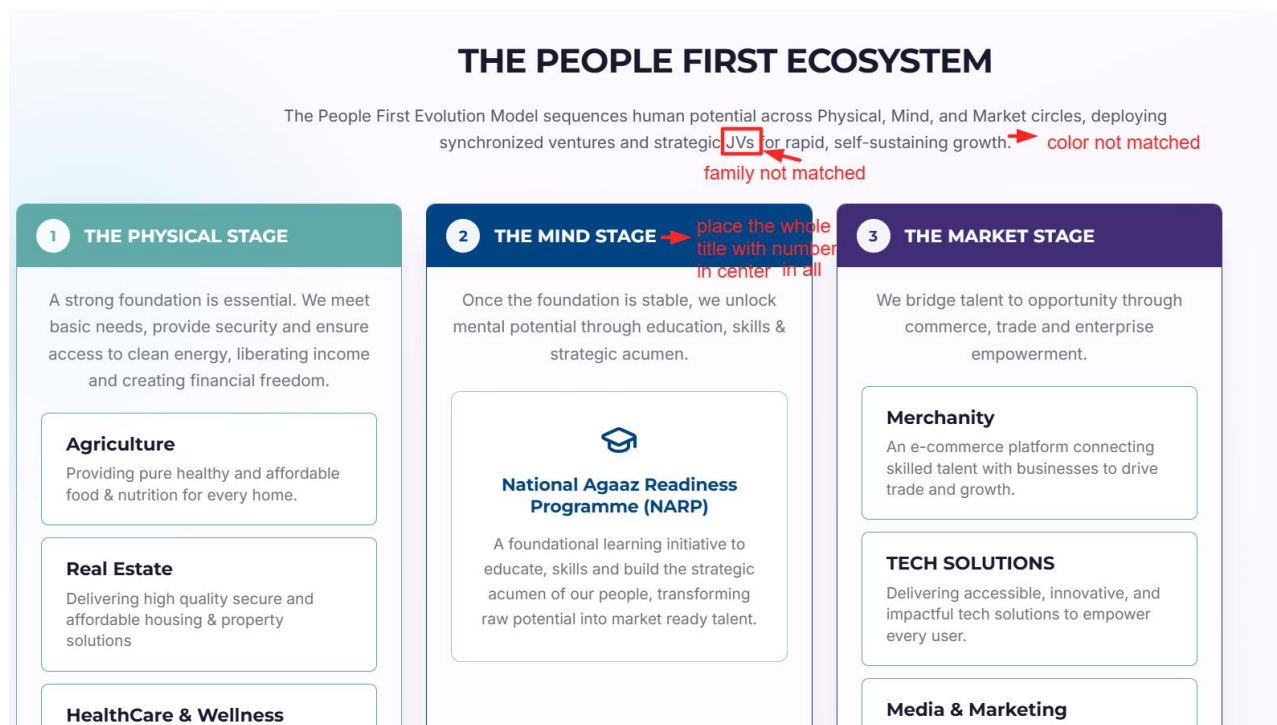

Evidence: image8.png

WWD-03 | Layout

The title with its number should be centered consistently across the cards.

Required correction: Center the title and number treatment as shown in the design.

Evidence: image8.png

WWD-04 | Layout / Imagery

In the “Results Clients Can Expect” section, the image and text position do not match the design.

Required correction: Match image and text placement to the design.

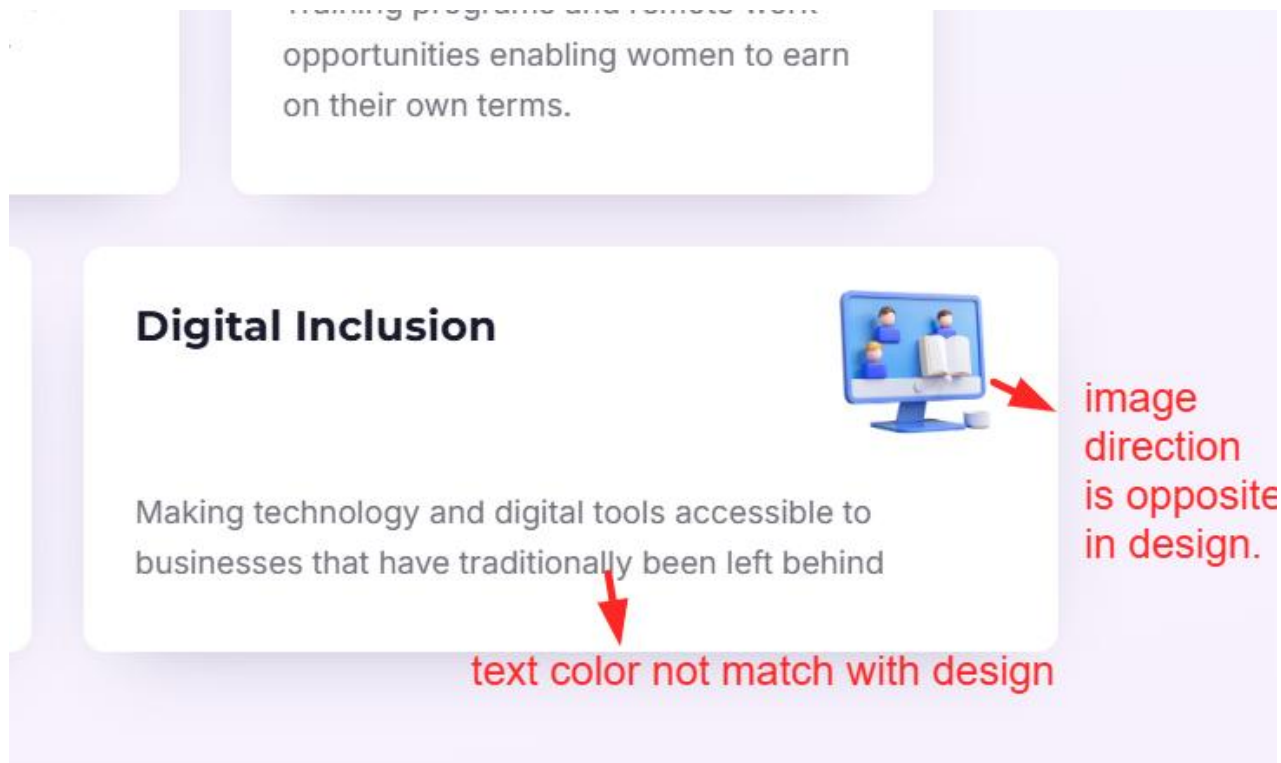

Evidence: image9.png

WWD-05 | Imagery

The image direction/orientation in the “Digital Inclusion” card is opposite to the design.

Required correction: Reverse/position the image according to the design.

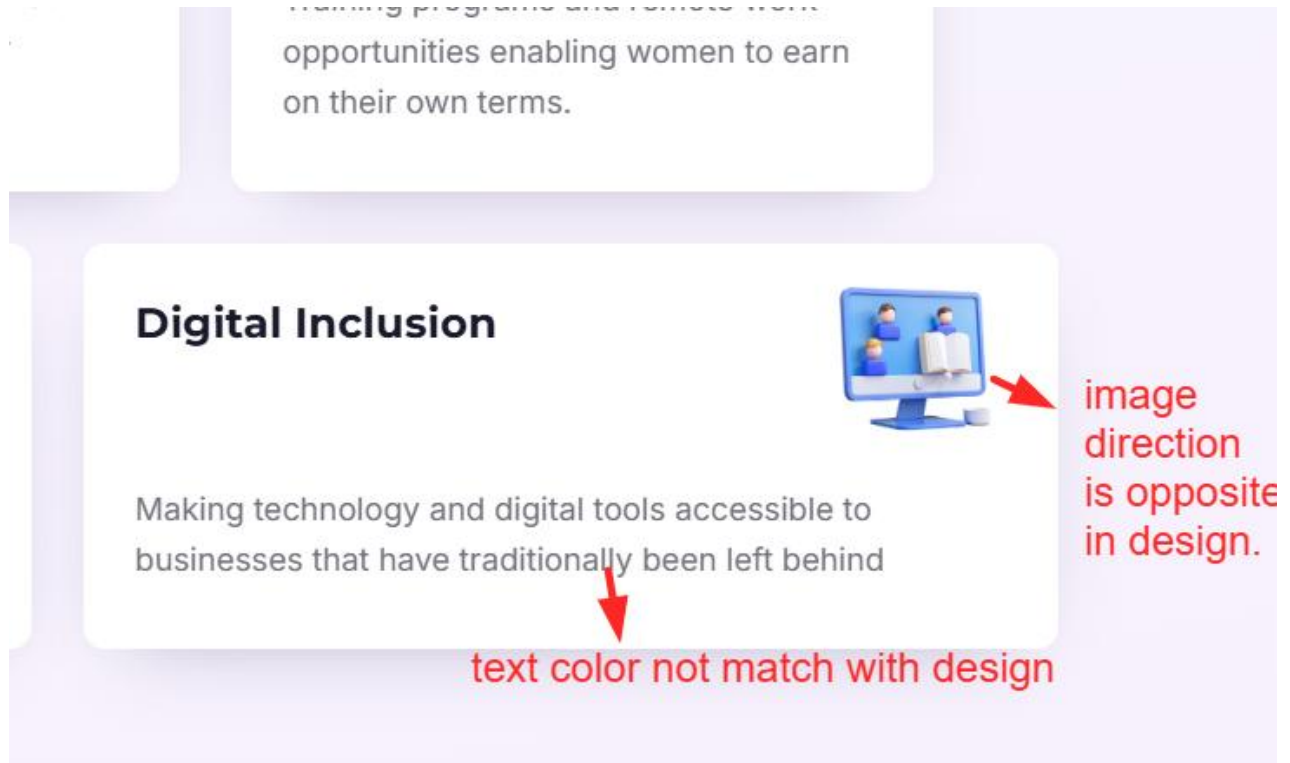

Evidence: image10.png

WWD-06 | Typography

The “Digital Inclusion” card text color does not match the design.

Required correction: Match the text color to the design.

Evidence: image10.png

WWD-07 | Visual styling

The edges of the green decorative shape in the “Joint Ventures” card are sharp.

Required correction: Match the edge treatment shown in the design.

edges of side green shape are sharpened

JOINT VENTURES

Independent businesses that align with our core philosophy and enter a formal equity or operational partnership with us.

Purpose:

Combining external specialized expertise with People First's infrastructure, network, and resource pool to achieve fast market scaling.

Partnership-driven growth engine

Evidence: image11.png

WWD-08 | Responsive

In mobile view, the items in “Results Clients Can Expect” should align consistently on the same line/treatment.

Required correction: Adjust the mobile layout/alignment to match the design.

Results Clients Can Expect

Increased online visibility and inbound customer enquiries

Reduced dependency on intermediaries

Higher profit margins through direct sales channels

Faster, more efficient operations

Sustainable digital growth

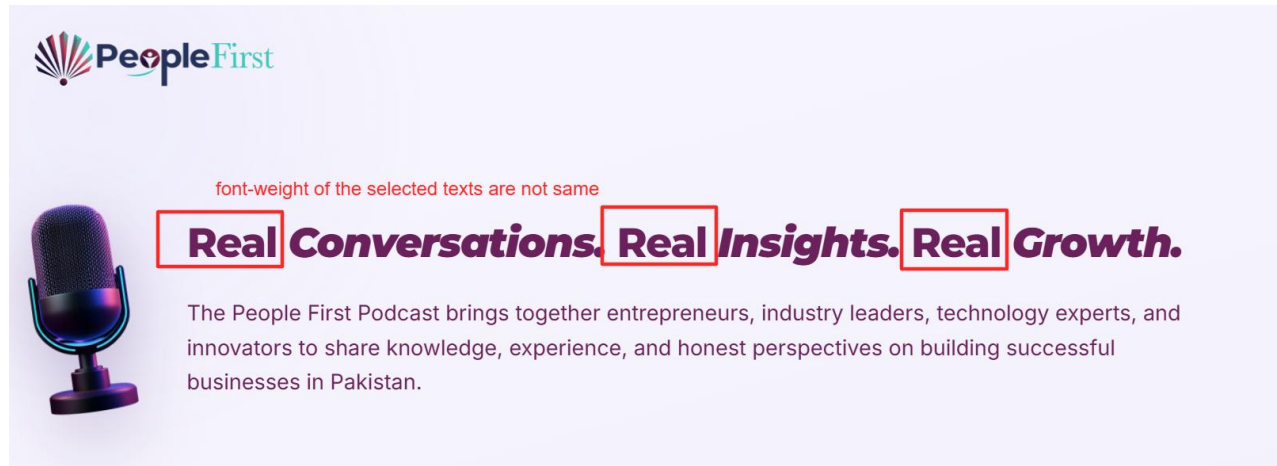

In mobile view,
all should align in same line

8. Podcasts – Detailed Findings

POD-01 | Typography

The selected words in the podcast heading do not use the same font weight as the design.

Required correction: Match the selected text weight to the design.

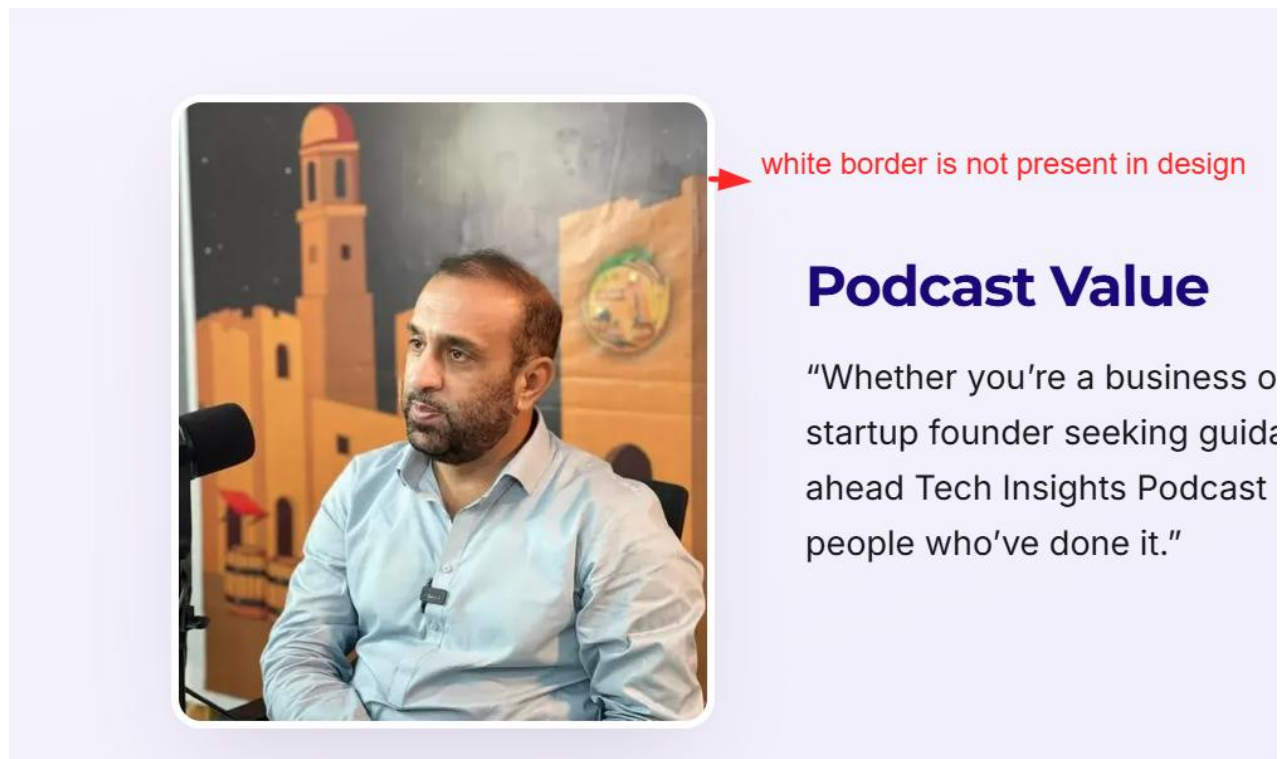

Evidence: image13.png

POD-02 | Visual styling

A white border is visible around the podcast image, but it is not present in the design.

Required correction: Remove the extra white border.

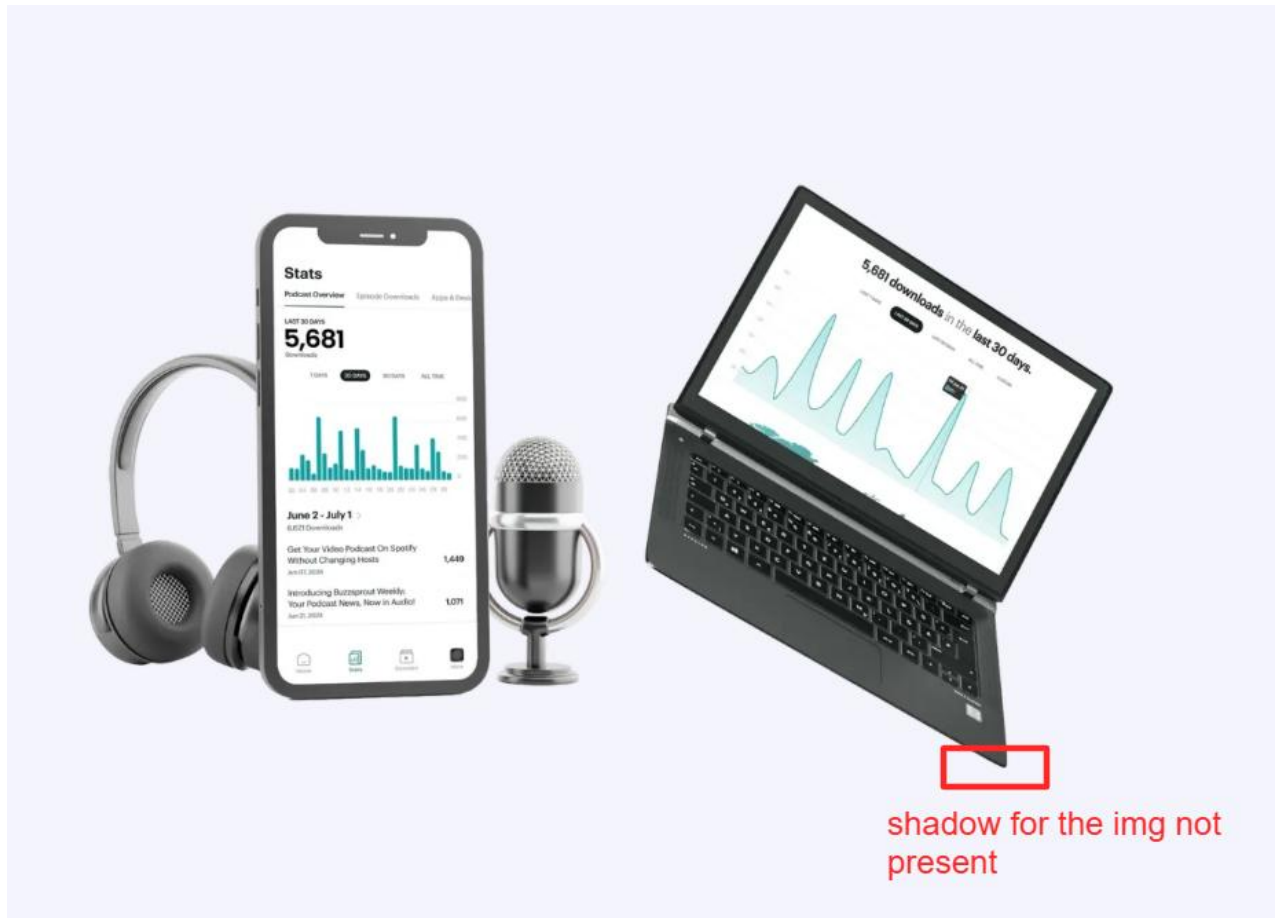

Evidence: image14.png

POD-03 | Visual styling

The image shadow is missing.

Required correction: Add the image shadow shown in the design.

Evidence: image15.png

9. Final Verification Checklist

- Verify all typography against the approved design, including font family and font weight.
- Verify image and decorative asset selection, orientation and visual treatment.
- Check button/card colors, border radius and shadows against the design.
- Test mobile widths around the reported 568px and 586px breakpoints.
- Recheck card and section alignment after responsive fixes.
- Run a final visual regression pass on all reviewed pages after corrections are merged.
